Founded at Sea.
PHILADELPHIA, Pa., Jan. 7.—The well known British tank steamer Wildflower, Captain Stonewall, which sailed from Philadelphia, December 11, for Rouen, France, with 1,732,626 gallons of crude oil in bulk, valued at \$59,653, and manned by a crew of thirty men, all told, is believed to have blown up or foundered at sea, and all hands perished, no tidings having been received from the ship since she left the Delaware breakers, 750 miles. She probably met with disaster when not far from the shores by the memorable gale of December 14.

The Spirit Moved Him.
LOS ANGELES, Cal., Jan. 7.—At a prayer meeting at South Pasadena, Charles Crawford arose under deep excitement and stated he could not hold his secret any longer. He then announced he was Albert Defendorf, son of a wealthy merchant of Huntington, Pa., and a fugitive from justice under sentence for burglary and larceny in Pennsylvania. He came to this city to-day and gave himself up to the sheriff.

Only the Beginning.
WASHINGTON, D. C., Jan. 7.—The treasury to-day lost \$2,163,000 in gold bars and \$1,995,000 in gold coin, and received from the Merchants' National Bank of New York, \$500,000 in exchange for currency, making the net loss for the day \$2,758,000. This leaves the true amount of the reserve at the close of business \$58,328,719. In financial circles here the fear is expressed that to-day's heavy withdrawals are but the beginning of heavy exportations.

Went Through a Bridge.
NEW ORLEANS, Jan. 7.—A freight train on the Louisville & Nashville river bridge plunged through an open draw on the bridge spanning the Rigolito to day. The engineer and fireman escaped by jumping and swimming to the light-house. Three white trunks were killed. A brakeman was also hurt. Passengers are transferred at Rigolito by steamer.

OHIO RIVER IMPROVEMENT.

Friends of the Measure are Hopeful of Good Results.
Special Dispatch to the Intelligencer.
WASHINGTON, D. C., Jan. 7.—The Ohio River Improvement Association is on the ground here in the person of its president, Col. J. L. Vance, of Gallipolis, who is surveying the field. Mr. C. B. Hart, chairman of the Wheeling chamber of commerce committee, arrived to-day to help along the movement to dam the river below Bellaire. A plan of campaign is being mapped out in consultation with friends of the improvement project. It is too early to say how the committee on rivers and harbors stands on the matter, but enough is known to encourage persistent effort to impress the committee. Those who have the matter in hand are very hopeful of good results.

Closed by the Sheriff.

STUBENVILLE, O., Jan. 7.—The store of J. W. Evans was closed by Sheriff McCoy this afternoon on an execution from Licking county for \$54.840 in favor of O. M. Evans, a brother, who lives at Columbus.

Mr. Lewis Gets His Patent.

WASHINGTON, D. C., Jan. 7.—A patent has been granted to William B. Lewis, of Wheeling, for a journal bearing or brass.

An Unfaithful Wife's Fate.

SPOKANE, Wash., Jan. 7.—Frank Denison, of Rockford, unexpectedly returned home last night and found his wife in the company of Patrick Hickey. The enraged husband ran into another room for his shotgun and Hickey escaped from the house. Mrs. Denison was about to follow, and had reached the door when she received the contents of both barrels in the back, killing her almost instantly. Denison then pursued Hickey, but before he could overtake him he was disarmed and placed under arrest. Denison and Hickey are prominent business men of Rockford.

Murdered and Robbed.

CLEVELAND, Ohio, Jan. 7.—Saturday night Albert Wolf, a wealthy farmer of West Dover, was found dead under the Nickle Plate railroad trestle, two miles west of Rocky river. To-day a bloody coat was discovered a mile away and footprints in the snow leading to it from the trestle. Wolf had a large roll of money with him, but his dead body only 60 cents was found.

Ex-Mayor Commits Suicide.

AKRON, Ohio, Jan. 7.—J. F. Scott, ex-mayor of this city, committed suicide this morning by hanging himself in his bed room. He had been suffering from grip for nearly a year, and lately had an attack of nervous prostration. He had made several previous attempts to take his life. The deceased was a prominent Odd Fellow.

NOTES ON NAVIGATION.

Stage of Water and Movements of Boats.
The River Interests.
BOATS LEAVING TO-DAY.
Parkersburg, LIBERTY, 11 a. m.

The marks at 6 p. m. showed 5 feet 9 inches and still falling, a fall of twelve inches in twenty-four hours.

Rivermen of Wheeling are wondering what has become of the harbor lines for the Wheeling harbor that were established by Colonel Stickney some two years ago, when the Ohio river commission sat here for two days and heard the manufacturing, railroad and river interests. Are the results pigeon-holed at Cincinnati?

The weather bureau indications given out yesterday afternoon were not very encouraging for resumption of navigation to-morrow. Rain was predicted for last night followed by snow this morning and cold weather again to-day. If the warm weather will only continue navigation would be speedily re-opened. As it is, Captain John S. Will will attempt to come up to Wheeling to-day, and has his packet, Liberty, scheduled to depart to-morrow morning at the usual hour for Parkersburg and way landings. Captain Booth will come through if anyone can; he is noted for being in the van whenever an attempt to resume navigation is on the tapis. Even if navigation is re-opened, the rivermen fear that the low stage of water on the upper river will be difficult to negotiate. Yesterday afternoon's report was that the river was 2 feet 4 inches and stationary at Pittsburgh. This is not quite enough water to allow the Keystone State to get up to Cincinnati, even should the ice run out. Before much can be done by the larger boats another rise will be necessary. The smaller packets, including the H. K. Bedford, Liberty, Lexington, Ben Hur and Jewel, however, can get along on the present stage comfortably.

Morgantown—River frozen. Thermometer at 40. Drizzling.
Greenboro—River 7 feet 10 inches and stationary. Cloudy and thawing.
Warren—River 1 foot 9 inches and stationary. Light snow and moderating.
Oil City—River 2 feet 9 inches and falling. Mild and light snow.
Pittsburgh—River 3 feet 8 inches and falling at the dam. Weather cloudy and warmer.
Steubenville—River 5 feet and falling. Cloudy and cold.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia, rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.
Edward Shepherd, Harrisburg, Ill., had a running sore on his leg for eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catwala, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Logan Drug Co.'s drug store.

MARVEL OF SCIENCE

A German Professor Discovers a Most Wonderful Light

FOR PHOTOGRAPHIC PURPOSES.

Will Penetrate Flesh and Most Other Organic Substances—He Has Succeeded in Photographing Metal Weights Which were in a Closed Wooden Case—Also a Man's Hand which Shows the Bones, the Flesh Being Invisible—Next we will be Able to See Through a Stone Wall—Possibilities of the Discovery.

NEW YORK, Jan. 7.—A dispatch from London says: The noise of war alarms should not distract attention from the marvelous triumph of science which is reported from Vienna. It is announced that Prof. Rontgen, of the Wurzburg university, has discovered a light, which for the purposes of photography will penetrate wood, flesh and most other organic substances. The professor has succeeded in photographing metal weights which were in a closed wooden case, also a man's hand which shows only the bones, the flesh being invisible.

The Chronicle correspondent says the discovery is simple. The professor takes a so-called Crookes' pipe, viz: A vacuum glass tube with an induction current going through it, and by means of rays which the pipe emits, photographs on ordinary photographic plates.

"In contrast with the ordinary rays of light these rays penetrate organic matter and other opaque substances just as ordinary rays penetrate glass." He has also succeeded in photographing hidden metals with a cloth thrown over the camera. The rays penetrated not only the wooden case containing the metals, but the fabric in front of the negative.

The professor is already using his discovery to photograph broken limbs and bullets in human bodies.

The New Battleship.

PHILADELPHIA, Pa., Jan. 7.—The new United States battleship Indiana, sailed from the League Island navy yard on her maiden voyage at 6:30 o'clock this morning. She goes first to Newport for her torpedoes and gun cotton and will then formally join Admiral Buncle's fleet at Hampton Roads. After the great battleship has been ceremoniously received by her sister ships of the squadron, she will go to Port Royal, S. C., where she will be placed on the big oval dry dock.

Big Shoe House Falls.

PORTSMOUTH, O., Jan. 7.—Padan Brothers & Co., manufacturers of ladies shoes, one of the largest houses in the west, assigned to W. B. Brice, Assets \$30,000; liabilities \$150,000. The firm employed 750 hands and had seventeen salesmen. Local creditors are protected by mortgages amounting to \$20,000.

A big factory was brought to a stand still the other day for want of a common shingle nail. The trouble was a mystery at first. Even the boss mechanic couldn't tell what was the matter. They sent for a high-priced expert who charged ten dollars an hour. All he said was "Gimme a nail." He drove it in the right place and in two minutes the whole factory was going again. That's the way with the machinery of the human body.

When the stomach and bowels are wrong what seems a mere trifle, blocks the whole system. Every part of the body feels the effects of a little constipation. The head aches, the mouth tastes bad, the stomach is distressed, the liver is congested and torpid; you feel sluggish and miserable and down-hearted; the energies are completely paralyzed—all for want of a little help to regulate the stomach and bowels. What you want is Dr. Pierce's Pleasant Pellets. They will make you regular and you keep so; they act in a comfortable natural way, not violently but surely. They give the intestines power to move naturally; and also tone the stomach and liver. You don't become a slave to their use, they cure you so you stay cured. If a druggist makes more money on some violent purging pill he may try to sell it to you. Don't let him.

You will be helped to a thorough understanding of your own body in every stage of health and disease by Dr. Pierce's Common Sense Medical Advice. This is a great and great plain English and replete with illustrations. The first edition of 50,000 copies was sold for \$2.50 each. The profits were devoted to publish the present edition of half a million free copies to be sent absolutely gratis to everyone who sends in one cent stamps to cover cost of mailing only.
